EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chuck Dougherty on June 24, 2004.

The application has been amended as follows: in claim 1, line 5, both occurrences of the word "guard" have been changed to --foot pinching means--.

In claim 1, line 5, the phrase -- extending vertically above the plane of the frame-- has been added after the word "side".

In claim 2, line 1, the word "guard" has been changed to -- foot pinching means--.

In claim 12, lines 10 and 11, all occurrences of the word "guard" have been changed to --foot pinching means--.

In claim 13, line 1, the word "guard" has been changed to -- foot pinching means--.

In claim 19, line 3, the word "guard" has been changed to -- foot pinching means-- and in line 3, the phrase -- extending vertically above the plane of the frame-- has been added after the second occurrence of the word "frame".

In claim 21, line 1, the phrase "A large animal incursion prevention apparatus" has been deleted and the phrase --The apparatus of claim 1,-- has been added in its place.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: prior art does not disclose a large animal incursion prevention apparatus comprising a frame with at least one roller mounted and a foot pinching means extending vertically above the plane of the frame to pinch the foot of an animal attempting to step on it. Prior art shows many forms of animal prevention devices, most containing smooth and protrusion covered rollers and some with deliver an electric shock to an animal stepping on it. The use of foot pinching means extending above the plane of the frame is unique.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Included for further reference on animal prevention devices are: Bjork (1,769,486), Osako (1,807,130) and Welter (2,591,220).
